Response to Amendment

This Office Action is in response to a communication made on August 26, 2008.

Claims 3, 9-14, and 23 have been cancelled.

Claims 1 and 15-21 have been amended.

Claims 1-2, 4-8, 15-22, and 24-26 are currently amended.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 21-22 and 24-26 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claim 21 is directed towards a system with means plus function steps. A system can include both hardware and software embodiments and claim 17 shows that the means for performing the listed steps can be digital logic or software steps. Having a "processing means" only limits the means to those for performing a process and as shown from the specification it is digital logic or software that performs the described process. Software is not considered one of the four statutory classes thus the claim is directed towards non-patentable subject matter.

Claims 22 and 24-26 are directed towards non-patentable subject matter for the same reasons as claim 21.

Allowable Subject Matter

Claims 1-2, 4-8, 14-20 are allowed.
